E911 Mapbook with GIS Data

Use constraints: The 911 related data layers (Esites, Landmarks, Roads, Driveways, Footprints, Atlas Sheets, ESZ, etc.) were developed and designed for 911 purposes only. The user should understand that the nature of the 911 data layers means they are never complete. Each municipal government is responsible for maintenance of the 911 database. Other data (non-911 related) used in the Vermont 911 Mapbook is acquired from the Vermont Center for Geographic Information (VCGI) (vcgi.vermont.gov) and other Vermont organizations.

Disclaimer:

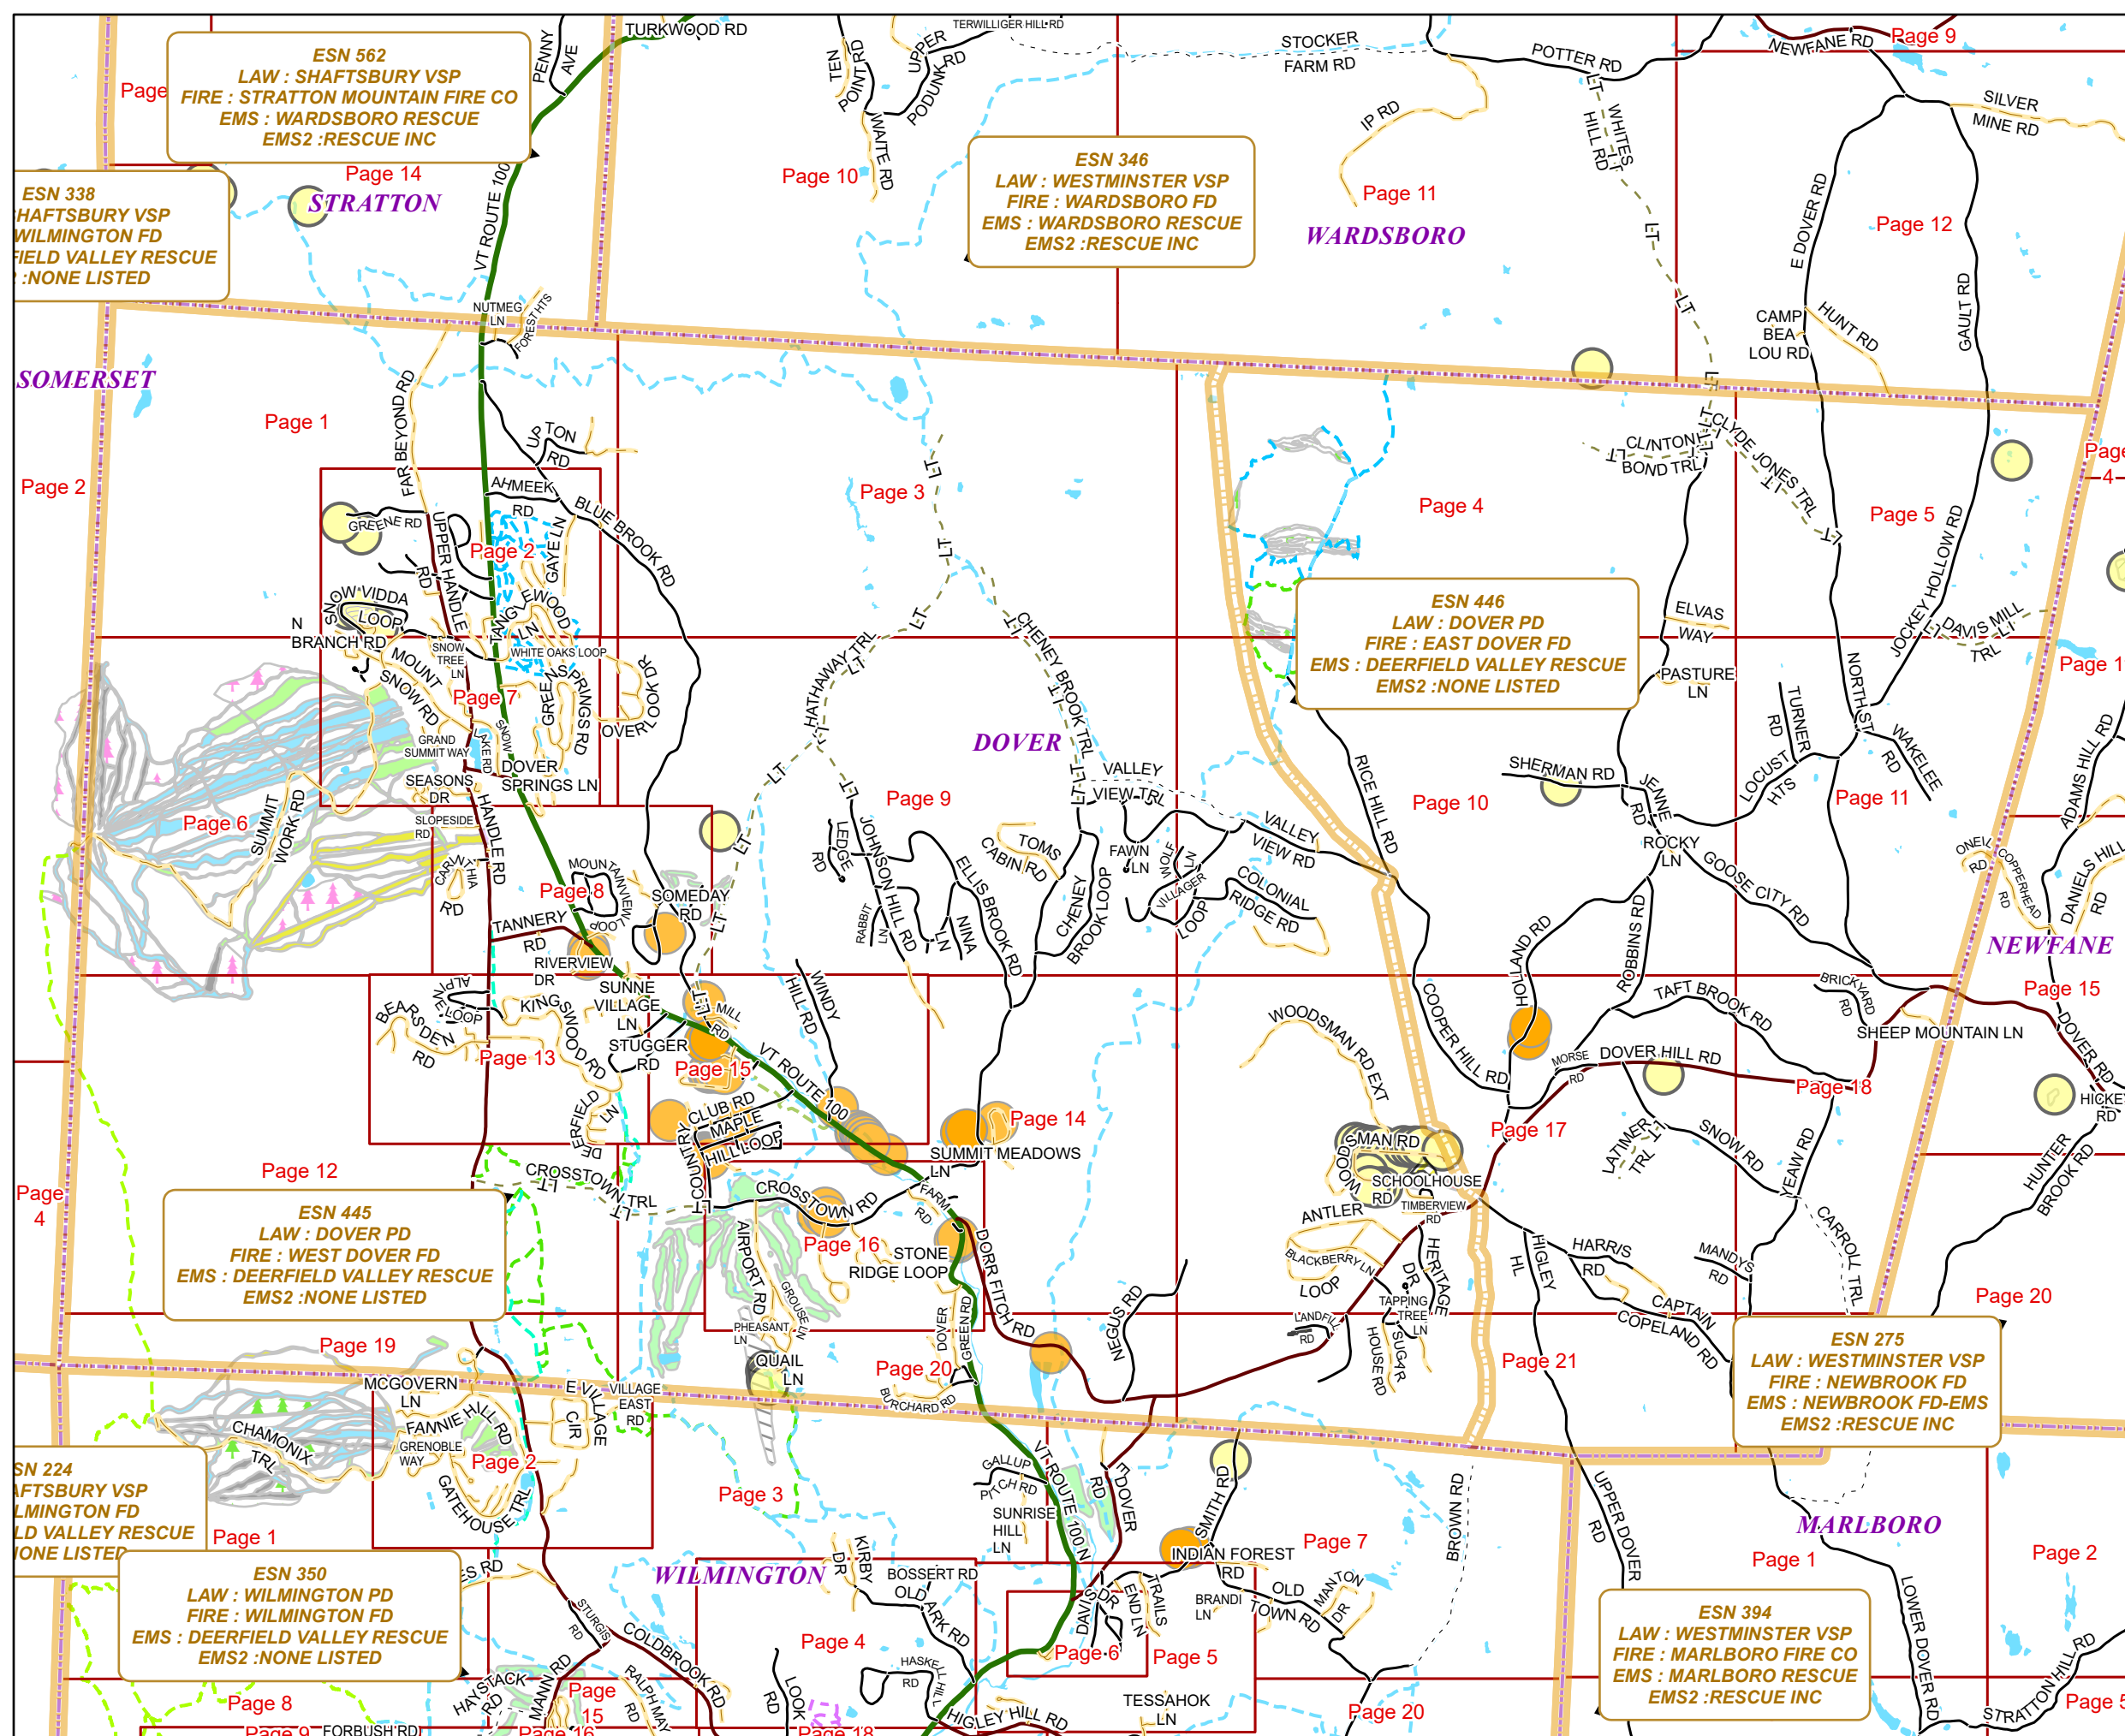

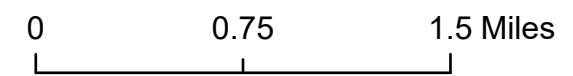

This Vermont 911 Mapbook and Public GIS data is for general reference only. Data layers that appear on the map may or may not be accurate, current, or otherwise reliable. The Enhanced 911 Board and the State of Vermont make no representations of any kind, including but not limited to the warranties of merchantability or fitness for a particular use, nor are any such warranties to be implied with respect to the GIS data and Mapbook.
